Sum Up

Human being is a co-existence of Self (consciousness) and Body (material)

The needs of the Self and the Body are of two different types, and they have to be fulfilled separately

The need of the Self is continuous happiness

The need of the Body is physical facility

The need of consciousness is fulfilled by activity of consciousness (it can not be fulfilled by material)

The needs of material is fulfilled by material

Sum Up

The Body is a material unit

The Self is a unit of consciousness

(consciousness is characterized by the activity of assuming and knowing)

The response (recognition & fulfillment) of the body is definite

The response (recognition & fulfillment) of the Self depends on assuming

- If the assuming is based on knowing, the response is definite (the conduct is conduct)
- If the assuming is without knowing, the response is not definite (the conduct is indefinite)

A gross misunderstanding is to assume the human being to be the Body (material), and to assume that all human needs can be fulfilled by material – this leads to deprivation, exploitation, etc

Preconditioning, Sensation and Natural Acceptance

Preconditioning: Assuming without knowing. Depends on something or someone outside, keeps changing. Not sure if it leads to harmony or if it leads to contradiction

Sensation: Happiness from favourable sensation of Sound, Touch, Form, Taste, Smell through body

Happiness from indulgence

tasty-necessary tasty-unnecessary tasteless-unnecessary intolerable

Natural Acceptance: Purpose or what to be, what to do as a human being. Leads to harmony (happiness) within, continuity is desirable, possible

For Relationship [for mutual fulfillment, complimentarity, not for opposition]

For Harmony [for mutual enrichment, not for exploitation- being in harmony within, and harmony with outside]

For Co-existence [for co-existence, not for conflict]

Content of Imagination in the Self

Is it like this?

Natural Acceptance **Preconditioning** **Sensation**

D = ?
D1.. Dn = Consumption,
profit, name, fame...
sensual pleasure ...
knowledge,...

State of Imagination – Random and Disorganised

If the imagination is random and disorganised

It indicates a state of confusion

Many of these imaginations may be
contrary to each other and contrary to the natural acceptance

If we observe carefully, we realize that we have accumulated a lot of desires, which are resulting in numerous thoughts and expectations

Harmony in the Self is realised when there are no contradictions in the imagination
imagination is in accordance with natural acceptance

State of Imagination – Random and Disorganised

Harmony in Self = D, T, E in accordance with Natural Acceptance

Sum Up

The Self is a unit of consciousness. It consists of various activities which are going on continuously

- The activities of desire, thought and expectation are together called imagination
- We can begin to observe the Self by becoming aware of our
 - imagination and
 - natural acceptance
- Behaviour and work are expressions of imagination

Imagination may be motivated by preconditioning or sensation or natural acceptance

- When imagination is fully motivated by natural acceptance, the Self is in harmony; and therefore in a state of continuous happiness. This is the state of self-organization (स्वतंत्रता). In this state, the conduct is definite and human
- When the imagination is motivated by preconditioning or sensation, the Self may be in harmony or disharmony/contradiction; and thus in a state of happiness or unhappiness. The state of the self is largely decided by external influence. This is a state of enslavement (परतंत्रता). In this state, the conduct is indefinite (it may be human or inhuman)

Production, protection and right utilization of physical facility is a part of my program (<1/4th)

I use the body as an instrument for fulfillment my program

I am the Seer

“Seer” means the one that sees / understands

e.g. If you are given something in your hand and you conclude that it is a pen, it is not your eyes that concluded this. It is you that concluded this. The Self sees via the eyes – the eyes don't see themselves

Like that all the 5 senses are just the instrument that enable the Self to see something outside

Just like you see outside, you can also see ‘within’, without using the body for sensation

e.g. You can ‘see’ that you are feeling happy, getting angry...

Thus, the Self ‘sees’ or understands, sometimes with the help of the body, sometimes without the help of body

The Body is used as an instrument

I am the Doer

“Doer” means the one that does, who takes decision to do

I am the one who decides. I decide what to do, what not to do...

I may or may not use the body to do – what I think of is my decision. I do that thinking within myself (there is no role of the body in this)

If required, the body is used to express my decision

The Body is used as an instrument

I am the Enjoyer (Experiencer)

“Enjoyer” means the one that experiences happiness / unhappiness

I am the one that feels enthused or depressed. I am the one that feels angry or delighted...

Feeling of Self-regulation □ Program for it □ Health in the Body

The Body is an orderly system (a harmony). It has definite conduct.

The cells in the body work together, in harmony with each other, participate in the larger order to form tissues, organs and organ systems...

I (Self) have to ensure the continuity of that harmony (at least not disturb it).

If I have a feeling of responsibility toward the body, I do what is required for fulfilling that responsibility.

This will ensure health in the Body

Program

(A) For Staying Healthy

1 Intake and Routine (Lifestyle)

2 Labour and Exercise

3 Postures for regulating internal & external body organs and Regulated Breathing

(B) For bringing body back to harmony from temporary disharmony

4 Medicine

(C) Dependence on drug / machine to perform a body function

and Treatment

- 1a. Intake includes air, water, sunlight, food (food is nutritious, digestible & tasty and waste is excretable), all intake through our senses (sound, sight, smell etc)
- 1b. Rising time, sleeping time, eating time...
- 2a. Outcome of labour is production of physical facility
- 2b. No physical facility is produced by exercise

Intake

Intake includes all that we take in through our sense organs – air, water, sunlight, food... Along with this, we also have feelings and thoughts in response to outside events/circumstances etc.

To maintain health:

- Intake of food that is not only tasty but also nutritious and digestible and rich in fibre (making its waste easily and efficiently excretable)
- Intake of water in the right amount and at the right time
- Daily exposure to fresh air and sunlight
- Awareness of choice of food as above and how much to eat (sensation of fullness)
- Avoiding distractions by other intake through our senses and the thoughts they generate in us, especially while eating.

e.g. what we are seeing (focusing on the meal or watching TV, playing games on the mobile etc) and hearing/being a part of (?arguments with others)

Routine

The Circadian Rhythm

-Body response to the solar cycle

(Understanding this helps in setting up a harmonious daily routine)

The Rhythm of Seasons

-Body response to the seasons

-Availability of complementary plants in various seasons

(Understanding this helps in deciding appropriate seasonal intake, necessary protection of the Body and setting up a harmonious seasonal routine)

The Body lifecycle Rhythm

-Childhood – growth (cuf)

-Youth (pitta)

-Old age (vata)

(Understanding this helps in deciding a harmonious lifestyle for each stage of life)

Daily Routine – in Harmony with Nature (Circadian Rhythm)

Ensure adequate movement of the Body + production of physical facility

Examples:

- Sweeping and swabbing your room / house / hostel
- Kitchen gardening
- Cycling to your college and back...

Ensure adequate movement of the Body

Examples:

- Jogging outdoors
- Weight training in a gym
- Exercise cycling in a gym
- Recreational cycling outdoors

Postures

Breathing

Postures for regulating internal and external body organs

Example: Yoga

Regulated Breathing

Example: Pranayam

Medicine

For bringing body back to harmony from temporary disharmony

Examples:

- Home remedies
- Integrated systems of medicine

Treatment

Examples:

- Insulin
- Dialysis
- Ventilator

Sum Up

The Self and the Body are in Harmony when there is a feeling of Self-regulation in the Self and Health in the Body

nurturing, protection and right utilisation of the body**

**If we can see that, the physical facility for
nurturing, protection and right utilisation of the body
is required in a limited quantity,
then we can understand the meaning of prosperity**

Harmony of the Self with the Body = Self-regulation (feeling of responsibility toward the body) in the Self and Health in the Body

Other than these 3 (Nurturing, Protecting and Right Utilization of the Body), what would you need PF for?

The outcome of putting in so much time & effort is only PF – and it has only this much utility

Have you been able to make an assessment of your need for PF?

Are you able to see whether you have more than what your needs are?

Ex: Find out – how much PF is required; how much PF is available; are you prosperous or deprived?

Prosperity (le`f))

Prosperity – The feeling of having / producing more than required Physical Facility

1 – Identification of required physical facility (including the required quantity)

– with right understanding

2 – Ensuring availability/ production of more than required physical facility

– with right skills

A prosperous person thinks of right utilisation, nurturing the other

In a previous session, we had seen that we can observe two categories of human beings
blhfy, vHkh nks rjg ds euq"; fn[kkbZ nsrs gSa&

1. Lacking physical facility, unhappy deprived (**lqfo/kk foghu nq[kh nfjnz**)
2. Having physical facility, unhappy deprived (**lqfo/kk laiUu nq[kh nfjnz**)

Now we can see that if the identification of required physical facility is missing, then one can only shift between category 1 & category 2

While we want to be – **tcfd ge gksuk pkgrs gSa&**

3. Having physical facility, happy prosperous (**lqfo/kk laiUu lq[kh le`)**)

This is possible only with

- a- the right identification of required physical facility and
- b- availability / production of more than required physical facility

Gross Misunderstanding 1 – Human Being = Body

Assumption: Human being = Body 

Needs of human being = physical facility
and feelings

Need for feelings (like respect) is continuous

All needs are fulfilled by physical facility 
(Eg. clothes, house, car... will fetch respect)

Physical facility required = unlimited! 

Physical
facility
available =
unlimited?

Gross Misunderstanding 2 – There is a Shortage of Physical Facility

Data: Of the 4.2 billion tons of food produced, more than 1 billion tons of food is lost or wasted every year, UN-backed report finds (11 May 2011)

About a third of all the food produced for human consumption each year – or roughly 1.3 billion tons – is lost or wasted, according to a new study commissioned by the United Nations Food and Agriculture Organization (FAO)

Global Food Production is 6 times requirement

Global Food Wastage is 1/3rd of production

Wastage is enough to feed 1300 crore people/year

Have we understood human needs?

Have we understood right utilisation?

Is it a question of production or distribution?

Is it a question of relationship?

Is it a question of right understanding?

It is a question of right education-sanskar

Sum Up

Human Being is co-existence of Self and Body

The Self is central to human existence; Body is an instrument of the Self

The transaction between Self and Body is only in the form of information

Physical Facility is required, in a limited quantity, for Nurturing, Protection & Right Utilisation of the Body

Prosperity = Feeling of having / producing more than required physical facility

1. Identification of required physical facility (including the required quantity) – with right understanding
2. Ensuring availability/ production of more than required physical facility – with right skills

The Self and the Body are in Harmony when there is a feeling of Self-regulation in the Self and Health in the Body

- Self-regulation = Feeling of responsibility toward the body – for Nurturing, Protection and Right Utilization of the Body
- Health = The body acts according to Self and parts of the body are in harmony (in order)
